

Cancellation & Service Credit SOP v4

Current operating procedure for agents handling cancellations and service credits.

Determining a cancellation fee

1. Identify the order and its account. 2. If the account is Enterprise, apply the terms of that account's enterprise agreement. 3. Otherwise apply Support Policy v3: free cancellation up to 24 hours before pickup, else a 10% fee.

Service credit for late pickup (carrier fault)

A pickup delayed by more than 2 hours due to carrier fault qualifies for a service credit. For non-enterprise accounts the credit is 10% of the order value per Policy v3. For enterprise accounts apply the agreement's credit rate. Credits exceeding the agent's approval limit must be escalated for manager approval.
